POWER & FREE

ALL-ELECTRIC VFD TRACTOR

Knight Global's Variable Frequency Drive (VFD) tractors offer innovative solutions to the way heavy loads are moved in manufacturing environments. The new "power and free" VFD tractor joins the growing family of diverse options, as well as pairing excellently with Knight's patented electrical ERail systems.

POWER & FREE

ALL-ELECTRIC VFD TRACTOR

Features and Benefits

Ergonomic Benefits:

- Assists an operator when controlling the movement and position of heavy loads.

Drive Wheel Engagement Features:

- Power and Free control, engaging the drive wheels only when a forward or reverse command is given.
- Disengagement allows for the operator to manually move the system if desired.

Programmable Features:

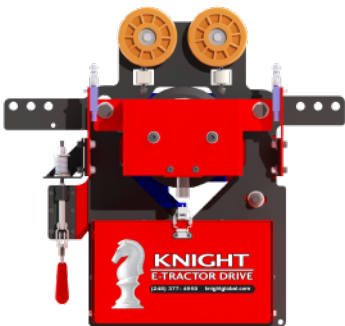

- Minimum and maximum travel speed.
- Acceleration and deceleration rates.
- Drive wheel engagement and disengagement speeds for improved traction control.

Ancillary Benefits:

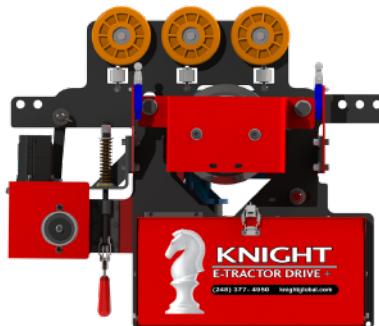

- Pairs excellently with Knight's Patented ERail to eliminate the need for hanging festooning.
